Subject: Registration Review Label Mitigation for Indoxacarb
Product Name: Chemsico Insect Bait 16I
EPA Registration Number: 9688-217
Application Dates: June 5, 2019
Decision Numbers: 561759

Dear Mr. Sarli:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Indoxacarb Interim Decision, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

A copy of your label stamped "Accepted" is enclosed. Products shipped after 12 months from the date of this amendment must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

CHEMSICO

Insect Bait 16I

For outdoor use around the home only

{See Appendix for Optional Marketing Claims}

ALTERNATE BRAND NAMES:
 Black Flag Fire Ant Killer
 Black Flag Extreme Fire Ant Killer

Active Ingredient:

Indoxacarb	0.016%
Other Ingredients	99.984%
Total.....	100.000%

KEEP OUT OF REACH OF CHILDREN

CAUTION See [back] [side] [panel] [booklet] for additional precautionary statements

NET WT. X POUNDS [LB] X kilograms

{OPTIONAL MARKETING LANGUAGE (For use with fire ant product only)}

[Chemsico Insect Bait 16I][Alternate brand name] granules kill the queen [in as little as 48 hours] and provide season* long control against Fire Ant Colony formation. Worker Fire Ants forage the bait and take the granules deep into the colony to feed other Fire Ants and the Queen. [Chemsico Insect Bait 16I][Alternate brand name] granules will quickly start to work, showing significant reduction of foraging Fire Ants within 24 hours and will help prevent fire ants in your yard [for an entire season*][for 3 months].

OPTIONAL PRODUCT FACT BOX

PRODUCT FACTS

What It Does:

[Kills Fire Ant[s] [Mound] [colony] and helps prevent new mounds from forming all season* long]. Provides general ant control (excluding Carpenter ants and Pharaoh ants)

Where to Use:

Outdoors, on Fire Ant Mounds [and ant nests] [and as a broadcast treatment in lawns for general ant control (excluding Carpenter ants and Pharaoh ants)]

When to Use:

Apply in early Spring or Summer at the first sign of [fire ant] ant activity. Re-apply in the Fall to reduce the number of [Fire ant] Ants that will return next Spring.

STOP. READ ENTIRE LABEL BEFORE USE

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FIRE ANT MOUND [& ANT NEST] TREATMENT

[Kills the colony]

Kills ants (excluding Carpenter and Pharaoh ants): Harvester, Argentine, Southern, Field, Allegheny Mound, Cornfield, Honey, Pavement, Red Imported Fire Ant, Nuisance, Odorous, Pyramid, Black Turf, White-footed, Crazy, Little Black, Ghost, Thief, Acrobat, Citronella, Big-headed, Lawn.

- (graphic) Sprinkle 4 tablespoons [4 shakes] of bait around each fire ant mound [and ant nest].
- (graphic) Do not water in.

3. Decreased ant activity will be observed as soon as 24 hours after bait placement. Fire ant mound control will occur in as little as 48 hours after application.
4. Treat new fire ant mounds [and ant nests] as they appear.

**[OPTIONAL DIRECTIONS FOR BROADCAST TREATMENT]
BROADCAST TREATMENT**

Kills ants (excluding Carpenter and Pharaoh ants): Harvester, Argentine, Southern, Field, Allegheny Mound, Cornfield, Honey, Pavement, Red Imported Fire Ant, Nuisance, Odorous, Pyramid, Black Turf, White-footed, Crazy, Little Black, Ghost, Thief, Acrobat, Citronella, Big-headed, Lawn.

[Product Sold in Bags]

1. Apply granules with a spreader at a rate 0.5 lbs per 1,000 sq. ft.
2. Do not water in.
3. Decreased ant activity will be observed as soon as 24 hours after bait placement. Fire ant mound control in treated areas will occur in as little as 48 hours after application.
- *4. In areas where the fire ant season lasts longer than three months, re-apply after 12 weeks (3 months) to prevent re-infestation.

SPREADER SETTINGS FOR LAWN APPLICATION			
Make & Model	0.5 lbs./1,000 sq. ft.	Make & Model	0.5 lbs./1,000 sq. ft.
Vigoro Rotary	X	Republic EZ Drop 530	X
Scotts Speed/Green	X	Republic EZ Rotary 540	X
Scotts AccuGreen	X	Precision Rotary SB50	X
Scotts Drop	X	Ev-N-Spred	X
Red Devil Rotary	X	Cyclone Rotary	X

NOTE: These settings are approximate due to variability and wear of spreader. Check settings and calibrations on a small area before making total application.]

[Product Sold in Shaker Bottle]

1. Remove cap and [break][remove] seal. Replace cap.
2. Open pop-top cap and evenly spread granules at a rate of 0.5 lbs of product per 1000 sq ft. Granules should be spaced like the ones pictured. (Graphic depicting granule placement.
3. Close pop-top cap to store any unused product.
4. Do not water in.
5. Decreased ant activity will be observed as soon as 24 hours after bait placement. Fire ant mound control in treated areas will occur in as little as 48 hours after application.

*6. In areas where the fire ant season lasts longer than three months, re-apply after 12 weeks (3 months) to prevent re-infestation.

USE TIPS

1. (graphic) For best results, apply in early Spring or Summer at the first sign of ant activity to prevent fire ant mounds and ant nests from forming.
2. Apply in the early morning or late evening when [fire] ants are actively foraging.
3. Do not apply if rain is expected within 4-6 hours.
4. Do not water or mow treated area for 24 hours after application. This will allow time for the ants to forage the bait and take it to the mound.
5. Treating the entire yard is recommended since it will kill foraging ants, ant nests and fire ant mounds which may not be visible at the time of application.
6. People and pets may re-enter treated area immediately after broadcast.

STORAGE AND DISPOSAL

Storage: Reclose bag [container] tightly after each use. Store in a cool, dry area which is inaccessible to children and pets. **Container Handling if Empty:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Food utensils such as spoons or measuring cups must not be used for food purposes after use in measuring pesticides.

Personal Protective Equipment (PPE):

All handlers must wear long-sleeved shirts, long pants, shoes, and socks.

Environmental Hazards

This pesticide is toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 24 hours. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems. Do not apply to any impervious surfaces which may contact or lead directly to surface water, storm drains, or urban runoff conveyance systems (gutters). Sweeping any product that lands on an impervious surface back onto pervious surfaces will prevent runoff to water bodies or drainage systems. Cover, incorporate, or clean up granules that are spilled.

NOTICE: To the extent consistent with applicable law, Buyer assumes all responsibility for safety and use not in accordance with directions.

[**If you are not satisfied with this product for any reason send your written request for a refund to the address below, together with the original dated store receipt showing the price you paid. Please allow 6-8 weeks for processing]

*In areas where the fire ant season lasts longer than three months, re-apply after 12 weeks (3 months) to prevent re-infestation.
